MSCD Readiness for Virtual iLearning

Manhattan School for Career Development, 751M, is a vibrant learning community that endorses equity and access for all students. Our program invites diverse learners who strive towards academic success whether in college or through acquisition of futuristic and digital career readiness skills. Through a rigorous combination of academics, inclusive education, vocationally-based training, cooperative learning experiences, digital and virtual iLearning and authentic internship-based community learning programs, we provide age appropriate curriculum that is aligned to NYSED Next Generation Standards, Career Development and Occupational Studies, industry specific standards, and CR-S Framework.

Our vision is for scholars to successfully compete in the global and digital marketplace. We are known for raising the standards of excellence in Special Education by providing various options that fit the individual needs of our lifelong learners.

Our school community excels in addressing the ever-changing world of opportunities. We are currently expanding our digital platform of iLearning for all the MSCD community stakeholders. This will afford our school's continuous virtual iLearning in the form of educational and professional development options. We are committed to providing students with individualized pathways for success along with innovative skills which will greatly impact their future career readiness skills.

Mission

The mission of Manhattan School for Career Development is to provide a challenging education that maintains equity, equality, and access for all students; to equip students with critical skills that promote their intellectual, social, emotional, and ethical growth thereby empowering all students to become integrated and successful citizens in an ever-changing global and digital society.
